"I welcome this opportunity to compliment and endorse the services provided by the U.S.-Saudi Arabian Business Council. It has been my pleasure and good fortune to participate in several USSABC-sponsored missions, all of which have led to direct benefits for the Saudi Paper Group. In particular, the USSABC has been instrumental in arranging substantive and productive meetings with potential suppliers, customers, and other relevant parties. As a member of the Saudi Arabian business community, I can also say that I have observed first-hand the constructive and meaningful role the USSABC has played in fostering and developing bilateral trade between the Kingdom and the United States. I, personally, and the Saudi Paper Group join in thanking the USSABC for its efforts and exemplary services, and we look forward to participating in future missions."

"I would like to commend the efforts [of the U.S.-Saudi Arabian Business Council] to develop business between the Kingdom of Saudi Arabia and the United States of America. Experience has proven that such trade missions whereby executives from both sides sit down together and better understand each other promotes better understanding and confidence which naturally results, as it has, in business agreements. Thanks to the Business Council, business missions are ideal vehicles to achieve this goal. I look forward to receiving the next business mission in the Eastern Province of Saudi Arabia."

"I would like to acknowledge here the constructive role being played by the U.S.-Saudi Arabian Business Council. Over the years, it has been serving the business communities by portraying the true picture of the potential business opportunities available in both countries. Without such a mission, exploration of lucrative business opportunities between the respective countries would be an arduous task.

As global competitiveness has become tough these days, cooperation and mutual understanding is crucially needed to avoid any unfavorable consequences. The U.S.-Saudi Arabian Business Council represents a good platform for enhancing economic cooperation and providing greater insight into trade and investment opportunities. It has left the footprints of its achievements in ways and I firmly believe that the mission of the Council will be even more crucial in the forthcoming decades."
