The following U.S. companies are participating in a trade mission organized by the U.S.-Saudi Arabian Business Council and the U.S. Department of Commerce to the Jeddah and Madinah area on Feb. 13-16, 2010, and are interested in meeting with local firms in order to increase their involvement in the Saudi market.

Clark Construction International, LLC

Website: www.clarkconstruction.com

Clark Construction is one of the largest general contractors in the U.S. whose services include program management, project and construction management, preconstruction and peer review, design-build, real estate development, public-private partnership, sustainable (green) construction and development, and construction materials procurement.

KMD Architects

Website: www.kmdarchitects.com

KMD Architects is an architectural firm that serves clients in the commercial, retail, healthcare, government, academic, corporate, residential, and hospitality sectors. The company was ranked the 25th largest architectural practice globally in 2009, the second most respected healthcare design firm in the U.S., and in the top 25 "greenest" firms in the U.S.

Lafarge Middle East & Africa Building Materials

Website: www.lafarge.com

Lafarge is a multi-national cement and construction materials company that is active in 79 countries. Lafarge is globally ranked as the top cement company, number two in aggregates, and number three in concrete and gypsum. Lafarge is also dedicated to sustainable development and allocates more money to concrete research and development than any other company in the world.

PGT Industries

Website: www.pgtindustries.com

PGT Industries is a manufacturer and supplier of residential and commercial windows and doors, as well as one of the largest window and door manufacturers in the U.S. The company pioneered the U.S. impact-resistant window and door segment, which are ideal for condominiums, hotels, office buildings, retail, and healthcare facilities.

Sky-Skan, Inc.

Website: www.skyskan.com

Sky-Skan, Inc. is a manufacturer of planetaria and provides services ranging from complete turnkey operations, installation of digital video projection systems, production and distribution of full dome video content, and real-time astronomical software. Sky-Skan has also pioneered the development of seamless full dome digital video projection.

Torti Gallas and Partners, Inc.

Website: www.tortigallas.com

Torti Gallas and Partners, Inc. is an architecture and planning firm established in 1953. Torti Gallas has extensive experience with all scales of master planning and building projects in the New Urbanism, revitalization, residential, mixed-use downtown, transit-oriented, and commercial markets both in the U.S. and internationally.

Vital Images, Inc.

Website: www.vitalimages.com

Vital Images, Inc. is a medical imaging software company that produces visualization software that allows physicians and other medical specialists to not only assess anatomy or pathology with greater accuracy, assist in pre-procedural planning, and facilitate post-surgical follow-up, but also provide communication options that can be accessed through the enterprise and the internet.
